COMPANY OVERVIEW

Harrys Fire and Projects was founded by Harry in 2015 who has over 10 years' experience in fire and safety industry. At Harrys Fire and Projects, we supply, service and maintain all fire extinguisher types for your safety. We offer a professional and friendly service. We have a range of services and budget packages, each designed to help you in different ways. We carry out detailed fire risk assessments, with easy to implement instructions on how to correct any potential problems at your workplace, if there are any.

We provide clear, practical, impartial advice to help keep you, your staff and customers safe. We ensure, through our regular training and keeping up with fire regulations, your companies' compliance in the workplace.

MISSION

First and foremost, our role is to save people's lives and safeguard South Africa.

We want to match high standards of safety and security with ongoing analysis - that is, identifying areas where efficiencies can be improved, and maintenance costs may be reduced over time.

To bring the exacting eye to the safety design, the compliance, the maintenance and repair, of all your fire protection systems.

SERVICE & MAINTENANCE

Formal maintenance contracts are tailored to meet individual needs that may range from a monthly service visit to permanently manned sites.

Service agreements cover all types of fixed Fire Protection and Detection Systems including Fire Extinguishers and Hose Reels. In addition, we provide system inspections, audits and confidential status reports and emergency plan. We can offer visibility study only if the client provide transportation.

WHAT WE DO

Harrys Fire and Projects creates tailored fire safety solutions which meet the fire safety requirements of business premises.

We provide regular service, install and repair of fire suppression systems of all makes.

We can also provide fixed fire suppression and portable equipment for almost any application.

OUR APPROACH

Our understanding of core safety concepts ensures we help our clients meet compliance and conformance every time, whatever their business.

We understand that every business is different, and this is where our ability to customize individual solutions sets us apart.

We offer a range of complete managed systems and only use products we've tested and found to be the best in their field.
